**Subject:** No call - sorry!

Sorry everyone. I messed up and spaced out the call today. We will definitely have a call next week and I will send out a reminder. Sorry for wasting your time...  
JC

Subject: While I am gone..... Residential Soil Sampling @ VB/I-70 - OU-01  
=====

All - while I am gone, I have arranged back-ups for my role at OU-01. Should you have questions or an issue comes up, please contact one of the following folks.

JENNIFER CHERGO, EPA Community Involvement Coordinator will be the main POC for the OU-01 work. Jennifer is very familiar with the Site having worked on it during the RA work several years ago. Her phone # is: 303-312-6861. Jennifer will be checking my mail box for incoming access agreements and logging them into the spreadsheet and sending copies to Shaw and USACE. If you need something or need to notify EPA, contact her 1st. She will also have the contractor's schedule of properties for sampling.

As she mentioned on Tuesday's conference call, Monday, September 24th & Tuesday, September 25th Jennifer will be on annual leave and I will not have yet returned. For those 2 days, Steve Wharton will be the primary POC for EPA.

Jennifer is also coordinating the "Follow-up Meeting on Environmental Condition Notices with the City and State in my absence.

STEVE WHARTON, Superfund Remedial Response Unit A Leader - Steve's phone number is 303-312-6935. His cell phone # is: Personal Matters / Ex. 6 Steve is often in meetings and not as his desk so if its an emergency, its OK to contact his cell phone #.

KAREN ODEN, USACE Project Manager - Karen's phone #s are: 402-995-2744 (office) & Personal Matters / Ex. 6 (cell). Karen is the main POC for USACE and with Shaw Environmental, Inc - the contractor performing the work. Karen is in Omaha and will come out periodically during the sampling effort. If you have questions about the sampling schedule, please feel free to contact Karen if you can't reach Jennifer.

I will return to the office on Wednesday, Sept. 26th. Thank you.
